I. Josh Stewart gave an update from the Environmental Scanning Task Force. He presented statistical data for area high school graduates and the percentage of graduates enrolling in college. He also presented information on the TSI test scores for the NTCC students representing high school from our service area. The committee had several questions concerning the data and requested additional information on how our students compare with other test scores state-wide.

II. The committee reviewed the NTCC vision statement along with a sample of vision statements from other colleges and universities.

III. The committee had a lengthy discussion and every member offered suggestions as the committee developed the following revised vision statement:

“ Northeast Texas Community College is to become a recognized educational destination and learning community”.

IV. The committee reviewed all of the strategic planning recommendations that had been submitted by the members and discussed the primary areas of direction for NTCC for the next five years. Several members offered comments concerning major challenges for NTCC in the near future.

V. The committee set the agenda for the August 7<sup>th</sup> & August 21<sup>st</sup> meeting to have recommendations for six to eight strategic plans for the college.

VI. The meeting was adjourned.
