1. Many State and National movements in Higher Education currently define student success in college as “completion of a degree or credential.” Do you agree with that definition? Are there other elements related to “student success” that NTCC should address in its *Destination 2025 Strategic Plan*?
2. In the face of declines in State support and rising costs, how can NTCC remain competitive and sustain its growth over the next decade?
3. Please provide any feedback on the Draft Mission Statement and/or “Foundational Planning” themes that you would like the Steering Committee to consider.
