COMMUNITY COLLEGE

# FALL 2020 COURSE OPTIONS

*Choose the class format that works best for you!*

## FACE-TO-FACE

(F2F)

Takes place in a traditional classroom setting with precautions in place for health and safety. Classes will have limited numbers of students allowed in each classroom to maintain social distancing. Regular visits to campus required.

## ONLINE

(ONLN)

Delivered fully-online through NTCC's Blackboard Learning Management System. No visits to campus required. A personal computer is required.

## HY-FLEX

(HYFL)

Taught face-to-face in a traditional classroom setting with real-time streaming provided. This allows students to have the opportunity to rotate between face-to-face interaction with the faculty and online instruction via streaming video at the assigned class time. Some travel as well as a personal computer are required.

## HYBRID

(HYBR)

A combination of an on-campus face-to-face component with additional material being delivered online. Some travel to campus as well as a personal computer are required.

## SYNCHRONOUS/ LIVE REMOTE

(SYNC)

Format that connects the instructor and the student in a virtual classroom where the student will receive live instruction and be able to interact directly with the faculty member during the course's class time. No visits to campus required. A personal computer is required.
