NORTHEAST TEXAS COMMUNITY COLLEGE

Healthcare Management

Associate of Applied Science (AAS)

PROGRAM DESCRIPTION

In the evolving healthcare environment, organizations need individuals who can plan, direct, and coordinate medical and health services. Healthcare managers work in a variety of organizational settings including hospitals, physician clinics, long-term care facilities, home health organizations, and others. The Healthcare Management program is designed to prepare students to work as entry-level managers in both business and healthcare settings. This curriculum is designed to prepare the student for entry-level positions in Healthcare Management and consists of both business and healthcare courses.

Healthcare managers may manage entire organizations or focus upon a specific clinical area or department. The importance of healthcare management is to ensure that facilities and staff comply with healthcare laws, regulations, and technology for optimal delivery of patient care.
