Northeast Texas Community College opened its doors just a few short years later in 1985. The NTCC District is composed of areas that support the college’s operations through an ad valorem tax. NTCC’s website is at <http://www.ntcc.edu>.

1.11 Irregularities

NTCC reserves the right to waive minor irregularities or genuine mistakes in a proposal and award a contract that is in the best of the College in determining the best value. NTCC may waive a minor irregularity or permit Respondents to correct a minor irregularity in a response if the irregularity:

- Does not affect price, quality, or delivery of the desired goods or services.

Any irregularities or lack of clarity in this solicitation should be brought to the attention of the Point of Contact listed in Section 1.3 as soon as possible so corrective addenda may be furnished to prospective Respondents.

1.12 Informalities

NTCC reserves the right to waive minor informalities in a proposals response if it is in the best interest of the College. A "minor informality" is an omission or error that, in NTCC's determination if waived or modified when evaluating proposals responses, would not give a Respondents an unfair advantage over other respondents or result in a material change in the proposals response or the solicitation requirements.

1.13 Discrepancies

Discrepancies or disparities between the contents of original proposal responses and copies will be interpreted in favor of NTCC. If Respondents fails to designate an "ORIGINAL," NTCC may reject the solicitation response or select a copy to be used as the original.

1.14 Exceptions

NTCC will more favorably evaluate responses that offer no exceptions, reservations, or limitations to the terms and conditions of the solicitation. Any response that takes exception to any mandatory item(s) in this solicitation process may be rejected and not considered. Any response to the solicitation that does not include a response to all the required information may be rejected and not considered by NTCC. A notation of "Not applicable" as appropriate will be considered a valid response.

No exception, nor any other term, condition, or provision in a proposal response that differs, varies from or contradicts this solicitation will be considered to be part of any contract resulting from this solicitation unless expressly made a part of the contract in writing by NTCC.

1.15 Assumptions

No assumptions should be included in a proposal response. The inclusion of assumptions in a proposal response may result in a respondent not being awarded a contract.

A proposal response should be responsive to the solicitation as advertised, not with an assumption that any or all terms, conditions, or provisions of the solicitation will be negotiated. Furthermore, all proposal responses constitute binding offers.

Any proposal response to this solicitation that includes disclaimer or other statement indicating that the response does not constitute a binding offer may be disqualified.

NTCC makes no guarantee of volume, usage, or total compensation to be paid to any Respondents under any awarded contract, if any, resulting from this solicitation; any awarded contract is subject to appropriations and the continuing availability of funds.

NTCC reserves the right to cancel, make a partial award, or decline to award a contract under this solicitation at any time at its sole discretion.

External factors may affect the project, including budgetary and resource constraints. Any contract resulting from this solicitation is subject to the availability of state or federal funds. As of the issuance of this solicitation, NTCC anticipates that budgeted funds will be available to reasonably fulfill the project requirements. If, however, funds are not available, NTCC reserves the right to reject any and all proposals, withdraw the solicitation or terminate the resulting contract without penalty.

3.6 Use of Subrespondents

Subrespondents providing services under the contract shall adhere to the same contract requirements in the delivery of the goods or services, and level of experience and Proposals as required of the Respondent. NTCC will not be responsible for the failure of service on the part of the U.S. Postal Service, courier companies, or any other mode of delivery chosen by respondent. Proposals received after the date and time specified for submission of proposals shall be considered late and shall not be considered for an award, unless it is determined by NTCC that late receipt was due solely to mishandling by NTCC after receipt of the proposal by NTCC. It is the responsibility of the respondents to ensure that their proposal arrives at the proper location by the date and time indicated in the solicitation.

4.3 Disclosure

Respondents shall note any and all relationships that might be a conflict of interest and include such information with the proposal. **(See Article 7, Contract Terms and Conditions).**

4.4 Costs for Responding

Respondents understand that issuance of solicitation in no way constitutes a commitment by NTCC to award a contract or to pay any costs incurred by respondents in the preparation of a response to this solicitation. NTCC is not liable for any costs incurred by a solicitation prior to issuance of or entering into a formal agreement, contract, or purchase order.

All cost(s) directly or indirectly, related to developing or preparing proposals, preparing for or participating in oral presentations, interviews and site visits, or any other similar expenses incurred by a respondent are entirely the responsibility of the Respondents and will not be reimbursed in any manner by NTCC.

All proposals become the property of the NTCC and will not be returned to the Respondent. The successful proposals may be incorporated into the resulting contract by reference. Disposition of unsuccessful proposals will be processed in accordance with NTCC open records policy.

4.7 Rejection of Proposals

In addition to those stated elsewhere in this solicitation, grounds for the rejection of proposals include, but shall not be limited to:

- Failure of a proposal to conform to the essential requirements of the solicitation.
- An offer imposing conditions that would significantly modify the terms and conditions of the solicitation or limit the respondent's liability to NTCC in any contract awarded based on such solicitation.
- Failure of the respondents to certify the solicitation.

4.8 Section Titles in the Solicitation

The titles of paragraphs used herein are for the purpose of facilitating ease of reference only and shall not be construed to infer a contractual construction of language.

4.9 No Contingent Fees

No person or selling agency shall be employed or retained or given anything of monetary value to solicit or secure this contract, except bona fide employees of the Respondents or bona fide established commercial or selling agencies maintained by the Respondents for the purpose of securing business.

For breach or violation of this provision, NTCC shall have the right to reject the proposals, annul the contract without liability, or, at its discretion, deduct from the contract price or otherwise recover the full amount of such commission, percentage, brokerage or contingent fees or other benefit.

4.10 Publicity Releases

The firm shall not refer to award of the contract in commercial advertising in such a manner as to state or imply that the products or services provided are endorsed or preferred by NTCC.

4.11 Conflicts of Interest

A conflict of interest is a set of facts or circumstances in which either a Respondents or anyone acting on its behalf in connection with this procurement has past, present or currently planned personal, professional or financial interests or obligations that, in NTCC's determination, would actually or apparently conflict or interfere with the Respondent's contractual obligations to NTCC.

A conflict of interest would include circumstances in which a party's personal, professional or financial interests or obligations may directly or indirectly:

- make it difficult or impossible to fulfill its contractual obligations to NTCC in a manner that is consistent with the best interests of the College;
- impair, diminish or interfere with that party's ability to render impartial or objective assistance or advice to NTCC; or
- provide the party with an unfair competitive advantage in future NTCC procurements/solicitations.

Neither the respondents nor any other person or entity acting on its behalf, including but not limited to subrespondents, employees, agents, and representatives, may have a conflict of interest with respect to this procurement. Before submitting a proposal, respondents should carefully review NTCC's Terms and Conditions for additional information concerning conflicts of interests.

Respondents must certify that it does not have personal or business interests that present a conflict of interest with respect to the solicitation and resulting contract. Additionally, if applicable, the Respondents must disclose all potential conflicts of interest. The Respondent must describe the measures it will take to ensure that there will be no actual conflict of interest and that its fairness, independence, and objectivity will be maintained.

NTCC will determine to what extent, if any, a potential conflict of interest can be mitigated and managed during the term of the contract. Failure to identify potential conflicts of interest may result in NTCC's disqualifying of a proposal or termination of the contract.

4.12.2 Notification

4.12.3 Resolution

NTCC's Vice President for Administrative Services shall review and determine the validity of the appeal. If a mutual resolution is not made, then the appeal shall be submitted to the President or his designee. Respondents must maintain compliance with Sections 1.4 and 5.12 of this solicitation during any appeal process. Any Respondent not maintaining compliance with the solicitation requirements may be rejected and may not be considered for award.

4.12.4 Authority

The Vice President for Administrative Services or his designee shall have the final authority for determination and take any action to resolve the appeal.

4.12.5 Interpretive Conventions

Whenever the terms "shall," "must," or "is required" are used in this solicitation in conjunction with a specification or performance requirement, the specification or requirement is mandatory. A respondent's failure to address or meet any mandatory requirement in proposals may be cause for NTCC's rejection of the proposal. Whenever the terms "can," "may," or "should" are used in this solicitation in conjunction with a specification or performance requirement, the specification or performance requirement is a desirable, but not mandatory, requirement. Accordingly, a respondent's failure to address or provide any items so referred to will not be the cause for rejection of the proposal but will likely result in a less favorable evaluation.
