

WORK COLLEGE

Northeast Texas Community College

Meet W4C Student Paisley McGee!

Paisley just completed her first semester as a full-time college student at NTCC. She got her start last summer in the Work4College Program where she was assigned to work in our Continuing Education Department. Before participating in the Work4College Program she could count on one hand how many times she had been on campus. And, even though she had been on campus before, the Student Services building was as far as she had ventured.

“Now, after I started working here, I was able to make personal and genuine connections with NTCC’s Faculty and Staff and I was also able to navigate my way around campus with

confidence. By the time the Fall Semester started I didn’t feel the first day of school jitters. I felt comfortable because I had new friendships already formed. I believe the reason I’ve had an effortless time adapting to college is thanks to the easy transition the Work4College Program created for me. In my first semester of college I have joined the Student Government Association and Phi Theta Kappa (International Honor Society of the Two Year College). There are few campus activities I miss. If the program helped me adjust to college life, maybe it will help other students too.” -Paisley McGee

Do you know someone who could benefit from the Work4College Program? **Applications are now OPEN!** To apply, visit: www.Work4College.com. If you have questions, please call or email Mason May at 903.434.8246 or mmay@ntcc.edu. The deadline to apply is April 15th, 2022.
