

EMSP 1501 EMT Basic

Course Syllabus: Fall 2026

"Northeast Texas Community College exists to provide personal, dynamic learning experiences empowering students to succeed."

Instructor: Tom Craft RN, LP, BS, AAS

Office: IA 114A1

Phone: 903-434-8269

Email: wcraft@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	0900 - 1700	0900 - 1700	0900 - 1700	0900 - 1700		

This syllabus serves as the documentation for all course policies and requirements, assignments, and instructor/student responsibilities.

Information relative to the delivery of the content contained in this syllabus is subject to change. Should that happen, the student will be notified.

Course Description:

5 credit hours.

Lecture/Lab/Clinical: three hours lecture and five hours lab each week.

Prerequisite(s): none

Co-requisite(s): EMSP 1164

A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of ill or injured patients

Student Learning Outcomes:

1. The student will demonstrate the ability to apply operational principles in an out-of-hospital setting.
2. The student will demonstrate the ability to recognize and treat a medical emergency at the EMT level in an out-of-hospital setting.
3. The student will demonstrate the ability to recognize and treat a traumatic emergency at the EMT level in an out-of-hospital setting.
4. Demonstrate knowledge and understanding of medical terminology.
5. Demonstrate knowledge of the rules and regulations that govern EMS.

Evaluation/Grading Policy: Grading of the Domain Sections

All EMS courses have a cognitive, psychomotor, and affective grading domain. A passing grade must be achieved in all of those domains in order to pass the course. If all three domains are passed, the letter grade will be assigned based on the performance in all 3 domains. Failure of any domain below the "C" range (as determined by the section) will constitute failure of the course regardless of the grades earned in the other 2 domains. Remember, it takes an actual 75 to pass the course in all sections and domains, or you will fail the entire course. You must also make a 70 on the Midterm Exam and a 70 on the Final Exam, or you will not be released to take the NREMT exam.

The following is a breakdown of the grade weights:

Assignments	30%
Quizzes	30%
Tests	20%

Final Exam 20%

Required Instructional Materials: Emergency Care and Transportation of the Sick and Injured 12th Edition

Publisher: AAOS Jones and Bartlett

ISBN Number: 9781284204308

Optional Instructional Materials:

Articles printed off line Minimum Technology Requirements: A computer and access to a printer.

Required Computer Literacy Skills: You must be able to use a computer and access the internet.

Communications: I will answer emails within 24 hours *Reminder: NTCC email is the official form of communication used by the college. If you email me from your personal email, I will send the response to your NTCC email and not copy the personal address.

Institutional/Course Policy: You must attend this course. 5 absences will result in an F. This is not an online course. Please do not treat it as if it is one. Even excused absences will count toward your four. Head phones are not allowed. Please use your phones only if asked during instruction. Otherwise they should not be on your table. If asked, please put them away.

Alternate Operations During Campus Closure and/or Alternate Course Delivery Requirements

In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Northeast Texas Community College to move to altered operations. During this time, Northeast Texas Community College may opt to continue delivery of instruction through methods that include, but are not limited to, online through the Blackboard Learning Management System, online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor NTCC's website (<http://www.ntcc.edu/>) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and NTCC email for important general information.

Additionally, there may be instances where a course may not be able to be continued in the same delivery format as it originates (face-to-face, fully online, live remote, or hybrid). Should this be the case, every effort will be made to continue instruction in an alternative delivery format. Students will be informed of any changes of this nature through email messaging and/or the Blackboard course site.

NTCC Academic Honesty/Ethics Statement:

NTCC upholds the highest standards of academic integrity. The college expects all students to engage in their academic pursuits in an honest manner that is beyond reproach using their intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. This course will follow the NTCC Academic Honesty and Academic Ethics policies stated in the Student Handbook. Refer to the student handbook for more information on these subjects.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to request accommodations. An appointment can be made with the Academic Advisor/Coordinator of Special Populations located in Student Services and can be reached at 903-434-8264. For more information and to obtain a copy of the

Request for Accommodations, please refer to the special populations page on the NTCC website.

Family Educational Rights and Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Dress Code Policy

Students of the EMT-B and Paramedic programs are required to attend clinical rotations in full designated uniforms. All of the sites in which clinicals are performed also have even further strict policies regarding personal appearance and hygiene. Professionalism, personal appearance and hygiene are also a graded requirement in the EMS classroom, lab and clinical.

A. Clinical and Classroom Uniform

The following page describes the NTCC EMS Program uniform which will properly be worn at all times in clinical settings. Occasional spot inspections will be held to promote student compliance. Students who show up to clinical without a total proper uniform will be sent home for that clinical and it will be logged in as an unexcused absence on the student's record. Therefore, it is highly recommended that each student have a second uniform with them on clinical rotations for use in the event the first uniform gets soiled or contaminated by blood or other body fluids.

Mandatory Minimum Uniform / Equipment Requirements

**** Official NTCC EMS shirt to appropriate certification level (Blue for EMT-Basic students)**

[Both a short-sleeve and long-sleeve version is available for students to purchase]

****Blue crew neck undershirt (plain without any designs or statements) or class Blue T-shirt.**

NOTE: A blue long sleeve t-shirt or blue turtleneck may be worn under the uniform shirt of an EMT-Basic student in cooler weather conditions or to conceal body tattoos. No other colors (including white) are allowed to be worn under the primary uniform shirt or extend beyond the sleeves.

****Black EMS uniform pants**

No BDU/bloused pants.

****Black Boots/Shoes**

(Shoes must be plain & polish-able leather tennis/coaching shoes; plain toe).

****Black Belt – 2" minimum width**

****NTCC EMS authorized Ball Cap -- Allowed for field Clinical and outdoors only**

****Black Pen, Small Note Pad, an Enclosed Clipboard/Notebook**

****Stethoscope with a minimum of medium/high grade quality**

OPTIONAL / PERSONAL Items of Concern

****NTCC EMS Embroidery Red Utility T-Shirt for paramedic students and Blue for EMT students**

(can be purchased by student to be worn exteriorly to class or lab only)

****Light Jacket. Must be black in outer color. No Hoodies.**

(However, rain jackets can be Neon Yellow or Orange)

items not allowed as a part of the ems uniform

****No unauthorized hats, caps, ear muffs, or winter headbands allowed in class, lab, or clinicals (limited).**

****JEWELRY:** No necklaces that can be viewed outside the uniform shirt.

B. . Program ID

Within the first two days of class, a student's picture will be taken at the beginning of class and an official NTCCEMS Student ID will be made. However, students will NOT be given the ID until ALL program required entry documentation is in the student's file. Once issued, the program ID is to be worn by ALL students at all times while actively participating in EMS Program activities. As such, once it is issued, the ID's will be worn during designated classroom/lab activities as well as all clinical rotations, on the right shirt collar with the picture showing. The picture ID is the property of the NTCC EMS Program and must be returned upon request at the end of the semester in order to be given a Course Completion Certificate.

1) Replacement ID's due to Loss, Name Change, or Appearance/Hair Change, Damage

Students are provided their first ID free of charge. However, if the student loses their ID, drastically changes their appearance (such as changing hair color/style, shaves a beard/mustache), has a name change during their time in the program, or damages the ID through negligence (ie: washing) the student will be required to pay for any new ID. Note that any such replacement may take a week to get done and subsequently affect the student's clinical attendance. So please make every effort to keep up with these ID's and maintain a "neutral" look while within the EMS Program.

Program AND/OR Clinical faculty may confiscate the program ID at any time, for violations of the uniform policy (both on campus or clinical sites), for violations of the professionalism policy, or for other issues related to ethical or moral behavior. Students are not allowed to participate in any clinical rotations while the program ID is in the possession of the Program. The EMS Program may return the program ID to the student after the following condition(s) has been met:

- Formal written request from the student detailing what actions will be taken to correct the issues which led to the confiscation of the ID.
- Conference with Program Director concerning the issue.

C. Grooming / Hygiene

- **Hair (both males / females)**

Hair must be clean, neatly groomed and of a natural color. Hair styles must remain neat and professional throughout the course, and must not draw unnecessary attention with designs, coloring, styles, or accessories. Students with longer hair are required to wear their hair up and away from the face. Longer hair must be worn in a tightly-wrapped single ponytail/braid (on back of head) or having hair wrapped up completely (like a bun). If the sides/bangs hang into the face where it touches the eyes or mouth, the hair must be clipped back. Hair accessories must be of neutral colors (black, brown, grey, or gold/silver/metal). No color scrunchies or bows allowed.

- **Facial hair (males)**

Mustaches and Beards must be neatly cleaned/trimmed. If a male student has a beard, it is still expected that he shave his neck. Sideburns must be neatly trimmed and groomed. Sideburns must not extend below bottom of student's ear. Males must be shaven for class, lab, and clinical. Males who show up for clinical unshaven or with ungroomed facial hair will be sent home.

- **Body odors, make-up, fingernails, & tobacco use**

Perfumes, aftershaves, or colognes are not allowed in the classroom or lab, and especially in the clinical settings. The liberal use of unscented sports-style deodorants and breath fresheners is highly recommended. Makeup, if worn, should be conservative/subtle. The wearing of false eyelashes is not allowed. Fingernails should be kept groomed short; no longer than one-eighth of an inch past the fingertip. Any nail polish needs to be of neutral colors and should not attract attention and cannot be peeling. Artificial nails are not allowed.

Smoking or other use of any tobacco products, (including E-cigarettes) while in uniform either the campus or clinical setting is very restricted/prohibited. Reminder, NTCC is tobacco free campus and so are most of our clinical affiliates.

- **Jewelry, piercings, & tattoos**

No jewelry may be worn at any time during clinical rotations with the following exceptions: watches (prefer breakaway style and not fabric band); wedding bands (no engagement rings unless stones are channel-set); necklaces (must be worn out of site inside uniform shirt with chain long enough not to fall out when bending over, and it must have breakaway device); and Medic Alert Bracelets. The wearing of religious emblems will be allowed with the uniform to the extent it does not create a potential infection control or safety hazard. "Choker" style/type necklaces and/or rubber/fabric "support" bracelets are not allowed. Visible body piercings on males or females are not permitted. Piercings are allowed only in the ears. Dangling or hoop earrings are not permitted. Gauges in ears cannot be open – they must be of the closed type. Nose rings and tongue studs are not permitted. Any/all tattoos that could potentially be considered obscene/offensive must be covered by clothing and/or other pre-approved coverings at all times while in uniform.

- **Outerwear**

If the student wears a jacket, it should be completely black without any patches, insignias, lettering, etc. Winter caps/hats are not permitted at any time other than conditions of extreme weather and must be of design for personal protection from heat loss. NTCC EMS authorized ball caps are not permitted while in uniform in the classroom, lab, or clinical sites except when outdoors at EMS clinical sites. Rain coats should be plain, without any designs, insignias, or statements and preferably yellow or orange with reflective tape. Camouflage design/material of any garment is not allowed. Umbrellas are not to be used on clinical rotations. While on EMS rotations, a reflective safety vest, provided by the

EMS agency, must be worn as directed by the EMS staff.

Tentative Course Timeline (*note* instructor reserves the right to adjust this timeline at any point in the term):

Date	Chapters	Times	Week
Tuesday, August 25	Initial paperwork & BLS certification Lab CPR, BVM, Cardiac Arrest	9am-4pm	WK 1
Tuesday, September 1	Lab Vitals, OPA, NPA, Suctioning, Oxygen	9am - 4pm	WK 2
	Chapter 1 EMS Systems		
	Chapter 2 Workforce Safety and Wellness		
	Chapter 3 Medical, Legal and Ethical Issues		
	Chapter 14 BLS Resuscitation		
Tuesday, September 8	Chapter 4 Communication & Documentation	9am - 4pm	WK 3
	Chapter 5 Medical Terminology		
	Chapter 9 The Team Approach to Health Care		
	Chapter 11 Airway Management		
	Chapter 6 The Human Body		
	Lab Lifting and Moving		
Tuesday, September 15	Chapter 8 Lifting & Moving Patients	9am - 4pm	WK 4
	Lab MDI, Nebulizers, Epi		
	Chapter 7 Life Span Development		
	Chapter 10 Patient Assessment		
	Lab Patient Assessment		
	Chapter 12 Principles of Pharmacology		
	Chapter 15 Medical Overview		
	Chapter 13 Shock		
Tuesday, September 29	Chapter 16 Respiratory Emergencies	9am - 4pm	WK 6
	Lab VR Training Respiratory		
	Chapter 17 Cardiovascular Emergencies		
	Lab VR Training Cardiac		
Tuesday, October 6	Chapter 19 Gastrointestinal and Urologic Emergencies	9am - 4pm	WK 7
	Chapter 18 Neurologic Emergencies		
	Chapter 20 Endocrine and hematologic Emergencies		
	Chapter 21 Allergy and Anaphylaxis		
Tuesday, October 13	Chapter 22 Toxicology	9am - 4pm	WK 8
	Chapter 23 Psychiatric Emergencies		
	Chapter 25 Trauma Overview		
	Chapter 24 Gynecologic Emergencies		
Tuesday, October 20	Mid Term Exam	9am - 4pm	WK 9

Tuesday, October 27	Chapter 26 Bleeding	9am - 4pm	WK 10
	Chapter 27 Soft Tissue Injuries Chapter 28 Face and Neck Injuries		
Tuesday, November 3	Chapter 29 Head and Spine Injuries	9am - 4pm	WK 11
	Chapter 30 Chest injuries		
	Lab Trauma Scenarios		
Tuesday, November 10	Chapter 31 Abdominal and Genitourinary Injuries	9am - 4pm	WK 12
	Chapter 32 Orthopedic Injuries		
	Chapter 33 Environmental Injuries		
	Lab Scenarios		
Tuesday, November 17	Chapter 34 Obstetrics and Neonatal Care	9am - 4pm	WK 13
	Lab Child Birth		
	Chapter 35 Pediatric Emergencies		
	Lab Scenarios		
Tuesday, November 24	Chapter 36 Geriatric Emergencies	9am – 4pm	WK 14
	Chapter 37 Patients with Special Needs		
	Chapter 38 Transport Operations		
	Chapter 39 Vehicle Extrication and Special Rescue		
Tuesday, December 1	Chapter 40 Incident Management	9am – 4pm	WK 15
	Chapter 41 Terrorism Response and Disaster Management		
	Review and Scenarios		
Thursday, December 3	Review	9am – 4pm	
Tuesday, December 8	Final Exam	9am - 4pm	WK 16
