

BIOL 2402 Anatomy & PHYSIOLOGY

Course Syllabus: Fall 2026

“Northeast Texas Community College exists to provide personal, dynamic learning experiences empowering students to succeed.”

Instructor: Lillia Elena Birdsong

Office: UHS 159

Phone: 903-434-8308

Email: ebirdsong@ntcc.edu

Weekday	Office Hours
Monday	8:00 am – 9:30 am
Tuesday	8:00 am – 9:30 am; 1:00 – 3:00pm
Wednesday	8:00 am – 9:30 am
Thursday	8:00 am – 9:30 am; 1:00 – 3:00pm
Friday	By Microsoft Teams

This syllabus serves as the documentation for all course policies and requirements, assignments, and instructor/student responsibilities.

Information relative to the delivery of the content contained in this syllabus is subject to change. Should that happen, the student will be notified.

Course Description:

4 credit hours.

Anatomy and Physiology II is the second part of a two-course sequence and study the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides hands-on learning experience for exploration of human system components and basic physiology. Systems to be studied include endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics).

Prerequisite: BIOL 2401 (Anatomy and Physiology I).

Student Learning Outcomes:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.
7. Apply appropriate safety and ethical standards.
8. Locate and identify anatomical structures.

9. Appropriately utilized laboratory equipment, such as microscopes, dissection tools, general lab ware,
10. Work collaboratively to perform experiments.
11. Demonstrate the steps involved in the scientific method.
12. Communicate results of scientific investigations, analyze data and formulate conclusions.
13. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Evaluation/Grading Policy:

The breakdown of the course requirements is as follows:

Requirement (%)	75 % Lecture Average
40 %	4 Unit Exams
20%	1 Comprehensive final Exam
14%	Learn Smart (Homework and quiz)
1%	Attendance
25%	Lab Average
5%	Lab Report + Quiz
20%	Lab Practical

Lab Practical Exam will be Fill in the Blank Question Type.

Semester grades will be earned as follows

Percentage	Letter Grade
90% and above	A
80 %–89.9%	B
70 %–79.9%	C
60%–69.9 %	D
59.9% and below	F

Required Instructional Materials:

Inclusive Access for Lecture Material: We have negotiated with the Publisher to obtain a discounted price for your

lecture course materials. Your eBook and Connect Access Code are included with your tuition and will be available through Blackboard on the first day of class (use the link found on the Bb course homepage). The materials are required for your class and essential in your success. If you also determine that you would like a print copy of your text in addition to your inclusive access loose-leaf copies will be available in the College Store at a discounted price. You may opt out of purchasing your materials from the College Store through the Census Date for the course. If you choose to opt out you will be responsible for purchasing your Connect Access Code from another vendor. You will receive a refund for the Inclusive Access if you opt out.

ISBN Number: 9781260265224

Edition: 16

Optional Instructional Materials:

Lab Book: Laboratory Manual for Human Anatomy & Physiology, 5th Edition, Terry Martin, McGraw-Hill Publishers
ISBN 9781260159363 Copyright 19

Lab Manuals cannot be rented from a third party. Each student must have a lab manual that can be written in and submitted for grading. No photocopies are allowed according to copyright laws.

Minimum Technology Requirements:

To access course materials and complete exams or quizzes, you will need:

-Laptop or desktop computer: A reliable laptop or desktop running Window, macOS, or compatible Linux distribution.

Minimum System Requirements:

Processor: At least a dual-core CPU.

RAM: Minimum of 4 GB (8 GB Recommended)

Storage: Sufficient storage space for files and installations (at least 10 GB)

Internet Connection: Stable high-speed internet connection.

Additional requirements: Webcam and microphone.

Required Computer Literacy Skills:

Learning Management System: The course will use Blackboard as an LMS platform.

Course Structure and Overview:

- Week 1-Introduction to A&P II
- Week 2- Endocrine System
- Week 3- Digestive System
- Week 4- Blood
- Week 5- Blood and Cardiovascular System
- Week 6- Cardiovascular System
- Week 7- Lymphatic System and Immunity
- Week 8- Respiratory System
- Week 9- Urinary System
- Week 10- Urinary System
- Week 11- Water, pH, and Electrolyte Balance
- Week 12- Reproductive System
- Week 13- Reproductive System
- Week 14- Pregnancy and Development
- Week 15- Genetics

Lecture-associated Make-up Work:

Make-up Exams: It is the student's responsibility to get in touch with the instructor immediately upon his/her return if an exam is missed. If a makeup exam can be given, there will be no bonus points added. **A failing course grade will result if the comprehensive final exam (#5) is missed or if two or more exams are missed.** Changes to this policy are solely up to the discretion of the instructor.

On occasion assignments may be given in class. There is no makeup for daily work. All Lab assignments are due at the **beginning** of the period and must be turned in before the next class start. Lecture assignments will be **accepted only** on the due date.

Please note: Due to FERPA, student privacy regulations, you will need to provide a written note listing anyone who will be allowed to pick up your work or to whom I will be able to speak about your grade or attendance.

Lecture and Connect Schedules:

These are posted on Blackboard. All schedules for this semester are approximate and may be changed as needed. For emergency reminders, such as a canceled class, I will make an announcement on Blackboard and/or send an email. **Make sure that you activate and check your NTCC email and Microsoft Teams regularly.**

Connect assignment and quiz: 14% of final course grade.

LearnSmart assignments are beneficial to your understanding of the material. These are not figured into your course grade; however, students said that doing the LearnSmart exercises improved their grades. This guided reading helps identify areas that you are having trouble understanding. These should take an average of 35-50 minutes.

Homework assignments are required and figured into the course grade.

- These can be done 2 times before the due date. 5% will be deducted for the 2nd try
- There is no time limit, so it is advisable to start early and work on this during the week.
- Use of the eBook and hints are available with no deductions.
- Feedback will be shown after submitting each attempt. After the first attempt, you will see what questions you got correct or incorrect. After the 2nd attempt, more detailed feedback is given. Printing is allowed

Quizzes have a time limit of 30 minutes. Usually 20 – 25 questions are pulled from a pool of questions. You may see new questions each time. Quizzes are good to do multiple times after the due date to help review for the exams, since you may see new questions each time

What are Study Attempts? Study attempts allow students to retake and review the material, as well as get feedback, as many times as desired without the attempt affecting the grade. These are not available until after the due date. This is especially beneficial for quizzes because in many cases, a set number of questions are pulled from a larger pool of questions. New questions may be displayed each time the study attempt is taken. However, this option prevents the possibility to give an extension if the due date is missed. If the due date is missing for any reason for a homework or quiz assignment, a zero will be given. There is no reason to ask for an extension.

For both Connect Homework and Connect Quizzes, don't wait until the last day or two to complete the assignment. If you have Connect problems, that will NOT be a reason to be late. It is your responsibility to contact Connect and get any problems resolved. However, before you get in touch with Connect, send me an email telling me your problem. This way I can check to make sure that everything is set correctly on my end. Since it may take me 24 hours to get back with you, this is even more reason not to wait until the last minute.

The two lowest assignment grades are dropped. The grade is continuously recalculated every time a grade is entered so that the grade you are seeing is current.

Exams and Lab Practical: There is ONE TEST for each of the four units for the Lecture and Laboratory that we are covering. Read the information in the “Start Here” folder to familiarize yourself with the process for downloading Proctorio Monitor Lockdown Browser for your Exams and Lab Practical in case we need to use it. Exams and Lab Practical will be in the classroom.

The “Lab” component of this course: will consist of laboratory activities through your Terry Martin Lab Manual Book for A&P I, and other assignments you will find in your respective Unit section in your Blackboard page.

- Check in Blackboard your Lab schedule for each week.
- Lab Manual Reports from your Terry Martin Lab book are graded based on documented evidence of completion of the lab exercise and successful answering of questions presented.
- Short answer questions are expected to be answered in complete sentences in your own words.
- All assignments including lab reports need to be submitted on the due date by the time specified. The Lab assignment will be due before the next lab class start.
- There is no reason to submit a lab assignment late. A zero may be given for any lab assignment that is received late.
 - Labs will generally be graded within 1-2 weeks of submission.
- One lab assignment grade will be dropped. The grade is continuously recalculated every time a grade is entered so that the grade you are seeing is the grade with the lowest grades dropped.
- Each Course Unit has free activities or Lab questions. You will not submit a written report for grading. Instead, please use this to study and be prepared for your Lab Practical.

Student Responsibilities/Expectations:

Attendance is expected and will be graded. Our schedule will be the same day and time you signed during your registration. Read very carefully your Blackboard Academic information and follow the instruction I provided. Computer and internet are necessary for this course. Use all the resources I posted in Blackboard to succeed in this course. Communicate with me if you have any problem.

Attendance Policy:

Regular and punctual attendance is expected to receive a final grade. Attendance will be taken at every class.

Communications:

If you need to get in touch with me, please use my email at ebirdsong@ntcc.edu

I will get back in touch with you within 24 hours. Microsoft Teams app will be used for faster communications in case of emergencies.

Institutional/Course Policy:

Failure to take the proctored final exam will result in a grade of “F” for the course. The last day to drop with a “W” is **Nov 17, 2026**. If circumstances require you to withdraw from this course, you must do so by that date. It is the **student’s responsibility** to initiate the withdrawal with the registrar’s office. **Failure to officially withdraw will result in your receiving a grade of F.**

Alternate Operations During Campus Closure and/or Alternate Course Delivery Requirements:

In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Northeast Texas Community College to move to altered operations. During this time, Northeast Texas Community College may opt to continue delivery of instruction through methods that include, but are not limited to, online through the Blackboard Learning Management System, online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor NTCC's website (<http://www.ntcc.edu/>) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and NTCC email for important general information.

Additionally, there may be instances where a course may not be able to be continued in the same delivery format as it originates (face-to-face, fully online, live remote, or hybrid). Should this be the case, every effort will be made to continue instruction in an alternative delivery format. Students will be informed of any changes of this nature through email messaging and/or the Blackboard course site.

Statement Regarding the Use of Artificial Intelligence (AI) Technology:

Employees and students shall be permitted to explore artificial intelligence (AI) and implement its use in and out of the classroom in accordance with policy and administrative regulations. The use of AI shall only be as a support tool to enhance student outcomes or as necessary to engage in research and shall never take the place of faculty, staff, and student decision-making. Any use of AI must comply with law, policy, and administrative regulations relating to student and employee privacy and data security. A student shall only use AI tools with faculty permission and shall be expected to produce original work and properly credit sources, including AI tools used in creating the work.

Example:

APA (7th edition)

OpenAI. (2026). ChatGPT (March 25 version) [Large language model]. <https://chat.openai.com/>

MLA (9th edition)

OpenAI. ChatGPT. 25 Mar. 2026, <https://chat.openai.com/>.

Employees or students who use AI tools to deceptively harm, bully, or harass others shall be disciplined in accordance with policy. [See DH, DIA series, FFD series, FFE, FLB, and the FM series] AI Use by Employees and Students. Northeast Texas Community College 225500 TECHNOLOGY RESOURCES CRB ARTIFICIAL INTELLIGENCE (LOCAL) DATE ISSUED: 12/8/2025 1 of 1 UPDATE 50 CRB(LOCAL)-AJC Adopted: 12/16/2025

NTCC Academic Honesty/Ethics Statement:

NTCC upholds the highest standards of academic integrity. The college expects all students to engage in their academic pursuits in an honest manner that is beyond reproach using their intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. This course will follow the NTCC Academic Honesty and Academic Ethics policies stated in the Student Handbook. Refer to the student handbook for more information on these subjects.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with

respect to providing reasonable accommodation as required to afford equal educational opportunity. It is the student's responsibility to request accommodation. An appointment can be made with the Academic Advisor/Coordinator of Special Populations located in Student Services and can be reached at 903-434-8264. For more information and to obtain a copy of the Request for Accommodations, please refer to the special populations page on the NTCC website.

Family Educational Rights and Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Tentative Course Schedule:

- Lectures, lab, and Connect schedules are available on Blackboard.
- Students must manage their technical problems with Connect directly with the support service.
- Schedules are subject to change, and announcements regarding cancellations will be made on Blackboard or via email.
- Complete Connect assignments and quizzes well before their deadlines.
