

Calculus II _ MATH 2414.085

Course Syllabus: Summer 2021

“Northeast Texas Community College exists to provide personal, dynamic learning experiences empowering students to succeed.”

Dr. Jackie Johnston

Professor of Mathematics

Office: MS 120

Phone: 903-434-8305

Email: jjohnston@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	Online	Online	Online	Online		Zoom by Appt.

This syllabus serves as the documentation for all course policies and requirements, assignments, and instructor/student responsibilities.

Information relative to the delivery of the content contained in this syllabus is subject to change. Should that happen, the student will be notified.

Course Description:

Four hours of class each week. Calculus II is a standard second course in the calculus. Topics include differentiation and integration of exponential, logarithmic and inverse trigonometric functions, integration of the trigonometric functions, various techniques of integration including u-substitution, parts, partial fractions, trigonometric substitution, rationalizing substitutions, approximate integration, applications of the integral for areas and volumes, surface area, arc length, infinite limits, indeterminate forms, L'Hopital's rule, improper integrals, sequences, series, convergence and divergence tests.

Prerequisite(s): MATH 2413 with a grade of “C” or better

Student Learning Outcomes:

Upon successful completion of this course, students will

2414.1 Determine various integrals and derivatives of algebraic, logarithmic, exponential, trigonometric, and inverse trigonometric functions.

2414.2 Employ numerous techniques of integration including u-substitution, integration by parts, integration by partial fractions, trigonometric substitution, and rationalizing substitutions.

2414.3 Utilize integrals to find area, volume, surface area, and arc length.

2414.4 Apply L'Hopital's Rule to indeterminate forms and infinite limits.

2414.5 Solve improper integrals.

2414.6 Determine convergence and divergence of sequences and series including the domain of a power series.

2414.7 Find, differentiate, and integrate power series representative of functions, including Taylor and Maclaurin series.

College Student Learning Outcomes:

Critical Thinking Skills

CT.1 Students will demonstrate the ability to 1) analyze complex issues, 2) synthesize information, and 3) evaluate the logic, validity, and relevance of data.

Communication Skills

CS.1 Students will effectively develop, interpret and express ideas through written communication.

Empirical and Quantitative Skills

EQS.1 Students will manipulate numerical data or observable facts by organizing and converting relevant information into mathematical or empirical form

EQS.2 Students will analyze numerical data or observable facts by processing information with correct calculations, explicit notations, and appropriate technology.

EQS.3 Students will draw informed conclusions from numerical data or observable facts that are accurate, complete, and relevant to the investigation.

Evaluation/Grading Policy:

A series of online Blackboard engagement opportunities including discussion forums and online homework (Lumen OHM) will be worth 50% of your final grade. A Midterm and Final Exam will contribute to 50% of the final grade, both the **Midterm and Final Exams MUST be proctored**. Students are required to have access to a computer with high-speed internet, a microphone, a webcam, and appropriate system rights to download and install the necessary software. Please note, the college does not provide this equipment. RP Now charges a \$19 fee per exam. The fee is paid using a credit card to RP Now prior to each exam.

Homework via Lumen OHM graded when submitted. Discussion forums are graded within 72 hours after the due date. The Midterm and Final Exams are graded when submitted except for completion and/or show your work problems, these will be grade within 72 hours after the due date. A grading rubric for discussion forums is available in the Appendix at the end of the syllabus.

Midterm Exam	25%	“A”	90 – 100 %
Homework/Engagement	50%	“B”	80 – 89 %
Final Exam	25%	“C”	70 – 79 %
Total:	100%	“D”	60 – 69 %
		“F”	Below 60 %

Make-up exams will not be given unless the student has coordinated with the instructor prior to the exam. Late work for whatever reason will incur a penalty unless otherwise indicated by the instructor.

Required Instructional Materials:

Inclusive Access Course: A discounted textbook fee is added to your student account to cover the cost of the required access code. You will access your Access Code through blackboard on the first-class day. **Inclusive Access Content:** 978-1-64087-216-5. You have access to a free digital textbook on openstax.org. If you would like a printed textbook these are available for purchase.

Publisher: Lumen

ISBN: 978-1-64087-216-5

Optional Instructional Materials:

Printed Textbook by OpenStax or Larson:

10th Edition Calculus Larson-ISBN 9781285057095

11th Edition Calculus (W/Out Access Card) Larson-ISBN 9781337275347

OpenStax- ISBN-13: 978-1-50669-807-6 or ISBN-13: 978-1-938168-06-2

Minimum Technology Requirements:

Graphing Calculator is required. TI-83/84 is preferred. A free online TI-83 will be available in Blackboard for PCs. Below are some technical requirements for using Blackboard that will help your experience in this course.

You will see the NTCC Tech Support email address and phone number below. Please contact them if you run into any technical problems during the semester. Please let your instructor know you are having difficulties as well.

If you need further NTCC technical support services, please contact Austin Baker or Mary Lou Pemberton at: abaker@ntcc.edu or 903-434-8279 mpemberton@ntcc.edu or 903-434-8270 Blackboard will work on both a Mac and a PC. (Chrome Books are known to have issues with Blackboard.) It is best to access Blackboard through Fire-Fox or Chrome as your web browser. If you have trouble with any of the activities working properly, you might change your web browser as your first solution. The Default Browser in Windows 10 is Edge. This browser does not do well with Blackboard! If you will go to Windows Accessories you will find Internet Explorer still on your computer but is not your default browser. If you have any difficulties navigating with Edge, close it and go to Internet Explorer.

You can download Blackboard Student for your smart phone from the Play store or the App store.

More information is available for Technology Requirements and Support under the [Student Resources – Technical Support Tab in Blackboard](#).

Required Computer Literacy Skills:

As an online student you will have a much different "classroom" experience than a traditional student. To ensure that you are fully prepared for your online courses, following is a list of expectations and requirements: Students in a hybrid and/or on-line program should be comfortable with and possess the following skill sets:

1. Self-discipline
2. Problem solving skills
3. Critical thinking skills
4. Enjoy communication in the written word

As part of your online experience, you can expect to utilize a variety of technology mediums as part of your curriculum:

1. Communicate via email including sending attachments
2. Navigate the World Wide Web using a Web browser such as Internet Explorer
3. Use office applications such as Microsoft Office (or similar) to create documents
4. Be willing to learn how to communicate using a discussion board and upload assignments to a classroom Web site
5. Be comfortable uploading and downloading saved files
6. Have easy access to the Internet
7. Navigate Blackboard, including using the email component within Blackboard. Instructions and tutorials for this are provided in your course.

For more information or technical assistance on using the Learning Management System, please refer to the Home Page, Orientation Module, in the important technical requirement, information and support folder in Blackboard.

Course Structure and Overview:

This is a ten-week online course where students are required to access graded activities on the Blackboard Learning Management System. A typical class involves general participation by all members in discussions regarding mathematical principles and procedures being studied. Students are required to complete online homework and discussion forums. It is particularly important students keep up with course materials and assignments since this is a very fast-paced course. Students are expected to watch instructional videos, read course textbook, and complete online assignments located in the Learning Management System, Blackboard by due dates.

Communications:

Emails will be responded to within 24 hours. If you do not receive a response within 24 hours, then the email was not received. Posts in the Discussion Forum "Questions, Comments, and/or Concerns?" will be monitored by the instructor. Responses by the instructor will be within 72 hours of post. Students are expected to abide by Netiquette rules when communicating online. See this link for details: [Netiquette Rules](#).

The college's official means of communication is via your campus email address. I will use your campus email address and Blackboard to communicate with you outside of class. Make sure you keep your campus email cleaned out and below the limit so you can receive important messages.

Institutional/Course Policy:

No late work will be accepted without prior approval by the instructor. Students are always expected to be respectful toward classmates and professor! Review Student Conduct in the Student Handbook. It is the student's responsibility to check Blackboard for important information/announcements regarding the course. Students should be working on course material via Blackboard every week. Do not wait until the last minute to complete and submit assignments in case of technology issues.

NTCC Academic Honesty/Ethics Statement:

NTCC upholds the highest standards of academic integrity. The college expects all students to engage in their academic pursuits in an honest manner that is beyond reproach using their intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. This course will follow the NTCC Academic Honesty and Academic Ethics policies stated in the Student Handbook. Refer to the student handbook for more information.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to request accommodations. An appointment can be made with the Academic Advisor/Coordinator of Special Populations located in Student Services and can be reached at 903-434-8264. For more information and to obtain a copy of the Request for Accommodations, please refer to special population page on the NTCC website.

Family Educational Rights and Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Tentative Course Timeline (*note* instructor reserves the right to adjust this timeline at any point in the term):

Summer 2021 Schedule

(subject to change)

Weeks	Topics/Assignments	Due Dates
Week 1: 6/7 – 6/13	Course Orientation/Chapter 1: Integration	
	Complete the Syllabus Acknowledgement Agreement	6/13/21
	Sections 1.1 – 1.7: Review textbook & video section materials.	6/13/21
	Work on assigned online HW exercises.	7/11/21
	Complete DF #1: Introductions	6/13/21
Week 2: 6/14 – 6/20	Chapter 2: Applications of Integration	
	Sections 2.1 – 2.4: Review textbook & video section materials.	6/20/21
	Work on assigned online HW exercises & DF #2: Midterm Discussion	7/11/21
Week 3: 6/21 – 6/27	Chapter 2: Applications of Integration	
	Sections 2.7 – 2.8: Review textbook & video section materials.	6/27/21
	Work on assigned online HW exercises & DF #2: Midterm Discussion.	7/11/21
Week 4: 6/28 – 7/4	Chapter 3: Techniques of Integration	
	Sections 3.1 – 3.4, 3.7: Review textbook & video section materials.	7/4/21
	Work on assigned online HW exercises & DF #2: Midterm Discussion.	7/11/21
Week 5: 7/5 – 7/11	Midterm Exam Due Complete DF#2: Midterm Discussion	7/11/21
	Midterm exam will be available 7/2 through midnight 7/11. Covers Week 1 through Week 4 material. MUST BE PROCTORED	
Week 6: 7/12 – 7/18	Chapter 5: Sequences and Series	
	Sections 5.1 – 5.3: Review textbook & video section materials.	7/18/21
	Work on assigned online HW exercises & DF#3: Final Discussion.	8/11/21
Week 7: 7/19 – 7/25	Chapter 5: Sequences and Series	
	Sections 5.4 – 5.6: Review textbook & video section materials	7/25/21

	Work on assigned online HW exercises & DF#3: Final Discussion.	8/11/21
Week 8: 7/26 – 8/1	Chapter 6: Power Series	
	Sections 6.1 – 6.4: Review textbook & video section materials.	8/1/21
	Work on assigned online HW exercises & DF#3: Final Discussion.	8/11/21
Week 9: 8/2 – 8/8	Chapter 7: Parametric Equations and Polar Coordinates	
	Sections 7.1 – 7.4: Review textbook & video section materials.	8/8/21
	Work on assigned online HW exercises & DF#3: Final Discussion.	8/11/21
Week 10: 8/9 – 8/11	Final Exam Due Complete DF#3: Final Discussion MUST BE PROCTORED	8/11/21
	Final exam will be available 8/5 through midnight 8/11. Covers Week 6 through Week 9 material.	

Appendix:

Discussion Forum Math Rubric:

- 9 – 10: The student completes all important components of the task and communicates ideas clearly. The student demonstrates in-depth understanding of the relevant concepts and/or processes. Where appropriate, the student chooses more efficient and/or sophisticated processes. Where appropriate, the student offers insightful interpretations or extensions (generalizations, applications, analogies).
- 7 – 8: The student completes most important components of the task and communicates clearly. The student demonstrates understanding of major concepts even though she/he overlooks or misunderstands some less important ideas or details.
- 5 – 6: The student completes some important components of the task and communicates those clearly. The student demonstrates that there are gaps in his/her conceptual understanding.
- 3 – 4: Student shows minimal understanding. Student unable to generate strategy or answer may display only recall effect. Answer lacks clear communication.
- 1 – 2: Answer may be totally incorrect or irrelevant.
- 0: Blank/no response
