

Math 1314 College Algebra

Course Syllabus: Summer 2022

“Northeast Texas Community College exists to provide personal, dynamic learning experiences empowering students to succeed.”

Instructor: Dr. Jackie Johnston

Office: MS - 120

Phone: 903-434-8305

Email: JJohnston@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	Online Appointment	Online Appointment	Online Appointment	Online Appointment	Online Appointment	Everyday via TEAMS Messaging & Email

This syllabus serves as the documentation for all course policies and requirements, assignments, and instructor/student responsibilities.

Information relative to the delivery of the content contained in this syllabus is subject to change. Should that happen, the student will be notified.

Course Description: This course covers the development of the complex number system, solutions of quadratic equations and systems involving quadratics, relations, functions, inverses, ratio, proportion, and variation, theory of equations, progressions, matrices, exponential and logarithmic functions, permutations, combinations, and probability as time permits.

Prerequisite(s): Appropriate TSI score / TSI placement with multiple measures.

Corequisite(s): Math0114 or Math0214

Student Learning Outcomes: Upon successful completion of this course, students will

- 1314.1 Demonstrate understanding and knowledge of properties of functions, which include domain and range, operations, compositions, and inverses.
- 1314.2 Recognize and apply polynomial, rational, radical, exponential, and logarithmic functions and solve related equations.
- 1314.3 Apply graphing techniques of transformations and combinations to common algebraic functions.
- 1314.4 Use linear mathematical models to problem-solve.
- 1314.5 Evaluate all roots of higher degree polynomial functions.

1314.6 Recognize, solve, and apply systems of linear equations using matrices.

Core Curriculum Purpose and Objectives:

Through the core curriculum, students will gain a foundation of knowledge of human cultures and the physical and natural world; develop principles of personal and social responsibility for living in a diverse world; and advance intellectual and practical skills that are essential for all learning.

Courses in the foundation area of mathematics focus on quantitative literacy in logic, patterns, and relationships. In addition, these courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

College Student Learning Outcomes:

Critical Thinking Skills

CT.1 Students will demonstrate the ability to 1) analyze complex issues, 2) synthesize information, and 3) evaluate the logic, validity, and relevance of data.

Communication Skills

CS.1 Students will effectively develop, interpret and express ideas through written communication.

Empirical and Quantitative Skills

EQS.1 Students will manipulate numerical data or observable facts by organizing and converting relevant information into mathematical or empirical form

EQS.2 Students will analyze numerical data or observable facts by processing information with correct calculations, explicit notations, and appropriate technology.

EQS.3 Students will draw informed conclusions from numerical data or observable facts that are accurate, complete, and relevant to the investigation.

Evaluation/Grading Policy:

A series of online Blackboard, discussion forums (15%), drop-box assignments (15%), and/or online homework problems (Lumen OHM, 20%) will be worth 50% of your final grade. A Midterm and Final Exam will contribute to 50% of the final grade. **Midterm and Final Exams MUST be proctored.** If you are unable to take your exams at NTCC's Testing Center than you must use Remote Proctor Now (RPN) or have an approved proctor. For RPN, students are required to have access to a computer with high-speed internet, a microphone, a webcam, and appropriate system rights to download and install the necessary software. Please note, the college does not provide this equipment. RP Now charges a \$19 fee per exam. The fee is paid using a credit card to RP Now prior to each exam.

Homework via Lumen OHM is graded when submitted. Other assignments including the Midterm and Final Exams are graded within 72 hours **after** the due date.

Midterm Exam	25%	100 – 90 →	“A”
Homework/Online Engagement	50%	89 – 80 →	“B”
<u>Final Exam</u>	<u>25%</u>	79 – 70 →	“C”
Total:	100%	69 – 60 →	“D”

Below 60 → “F”

Make-up exams will not be given unless the student has coordinated with the instructor prior to the exam. You have “late passes” available for the OHM Lumen homework. If you miss a scheduled due date, you may use your “late passes”.

Required Instructional Materials:

Good news: your textbook for this class is available for free online, in web view and PDF format! You can also purchase a print version, if you prefer, via the campus bookstore or from OpenStax on Amazon.com. The free PDF format is available in your Blackboard course.

You can use whichever formats you want. Web view is recommended -- the responsive design works seamlessly on any device. If you buy on Amazon, make sure you use the link on your book page on openstax.org so you get the official OpenStax print version. (Simple printouts sold by third parties on Amazon are not verifiable and not as high-quality.)

College Algebra by OpenStax is licensed under the Creative Commons Attribution License v4.0

Inclusive Access Course: A discounted textbook fee is added to your student account to cover the cost of the required access code. You will access your Access Code through Blackboard on the first-class day. Inclusive Access Content: 978-1-64087-291-2

Publisher: OpenStax
Date: 2018

ISBN Number:

Print: ISBN-10: 1-938168-38-0 or ISBN-13: 978-1-938168-38-3

Digital: ISBN-10: 1-947172-12-3 or ISBN-13: 978-1-947172-12-8

Note: The NTCC Bookstore link is at www.ntcc.edu.

Optional Instructional Materials:

Print copy of the textbook is highly recommended. Research indicates that students learn more and retain it longer from hard copy text.

Minimum Technology Requirements:

Graphing Calculator is required. TI-83/84 is preferred. A free online TI-83/84 will be available in Blackboard for PCs.

Below are some technical requirements for using Blackboard that will help your experience in this course.

You will see the NTCC Tech Support email address and phone number below. Please contact them if you run into any technical problems during the semester. Please let your instructor know you are having difficulties as well.

If you need further NTCC technical support services, please contact Austin Baker or Mary Lou Pemberton at:

abaker@ntcc.edu or 903-434-8279

mpemberton@ntcc.edu or 903-434-8270

Blackboard will work on both a Mac and a PC. (Chrome Books are known to have issues with Blackboard.) It is best to access Blackboard through Fire-Fox or Chrome as your web browser. If you have trouble with any of the activities working properly, you might change your web browser as your first solution. The Default Browser in Windows 10 is Edge. This browser does not do well with Blackboard! If you will go to Windows Accessories you will find Internet Explorer still on your computer but is not your default browser. If you have any difficulties navigating with Edge, close it and go to Internet Explorer.

You can download Blackboard Student for your smart phone from the Play store or the App store.

More information is available for Technology Requirements and Support under the [Student Resources – Technical Support Tab in Blackboard](#).

Required Computer Literacy Skills:

As an online student you will have a much different "classroom" experience than a traditional student. In order to ensure that you are fully prepared for your online part of the course, following is a list of expectations and requirements: Students in a hybrid and/or on-line program should be comfortable with and possess the following skill sets:

1. Self-discipline
2. Problem solving skills
3. Critical thinking skills
4. Enjoy communication in the written word

As part of your online experience, you can expect to utilize a variety of technology mediums as part of your curriculum:

1. Communicate via email including sending attachments
2. Navigate the World Wide Web using a Web browser such as Internet Explorer
3. Use office applications such as Microsoft Office (or similar) to create documents
4. Be willing to learn how to communicate using a discussion board and upload assignments to a classroom Web site
5. Be comfortable uploading and downloading saved files
6. Have easy access to the Internet
7. Navigate Blackboard, including using the email component within Blackboard. Instructions and tutorials for this are provided in your course.

For more information or technical assistance on using the Learning Management System, please refer to the Home Page, Orientation Module, in the important technical requirement, information and support folder in Blackboard.

Course Structure and Overview:

This is a ten-week online course where students are required to access graded activities on the Blackboard Learning Management System. A typical class involves general participation by all members in discussions regarding mathematical principles and procedures being studied. Students are required to complete online homework, as well as other assignments. It is particularly important students keep up with course materials and assignments. Students are expected to watch instructional videos, read course textbook, and complete online assignments located in the Learning Management System, Blackboard by due dates.

Communications:

Emails and phone messages will be responded to with 24 hours. If you do not receive a response within 24 hours, then the email or phone message was not received. Posts in the Discussion Forum "Questions, Comments, and/or Concerns?" will be monitored by the instructor. Responses by the instructor will be within 72 hours of post. Students are expected to abide by Netiquette rules when communicating online.

See this link for details: [Netiquette Rules](#).

The college's official means of communication is via your campus email address. I will use your campus email address and Blackboard to communicate with you outside of class. Make sure you keep your campus email cleaned out and below the limit so you can receive important messages.

Institutional/Course Policy:

No late work will be accepted without prior approval by the instructor. Students are always expected to be respectful toward classmates and professor! Review Student Conduct in the Student Handbook. It is the student's responsibility to check Blackboard for important information/announcements regarding the course. Students should be working on course material via Blackboard every week. Do not wait until the last minute to complete and submit assignments in case of technology issues.

NTCC Academic Honesty/Ethics Statement:

NTCC upholds the highest standards of academic integrity. The college expects all students to engage in their academic pursuits in an honest manner that is beyond reproach using their intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. This course will follow the NTCC Academic Honesty and Academic Ethics policies stated in the Student Handbook. Refer to the student handbook for more information on these subjects.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to request accommodations. An appointment can be made with the Academic Advisor/Coordinator of Special Populations located in Student Services and can be reached at 903-434-8264. For more information and to obtain a copy of the Request for Accommodations, please refer to the special populations page on the NTCC website.

Family Educational Rights and Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Tentative Course Timeline (*note* instructor reserves the right to adjust this) timeline at any point in the term.

Summer 2022 Schedule
(Subject to change)
Math1314.085

Weeks	Topic	Due Dates
Week 1: 6/6 – 6/12	Module 3: Rectangular Coordinate System and Equations of Lines: 2.1 – 2.2	
	Complete the Syllabus Acknowledgement Agreement	6/12/22
	Review textbook section material.	6/12/22
	Complete assigned online HW problems.	6/12/22
	Complete DF #1: Introductions	6/12/22
Week 2: 6/13 - 6/19	Module 4: Equations and Inequalities: 2.5 – 2.6	
	Review textbook section material.	6/19/22
	Complete assigned online HW problems.	6/19/22
	Work on DF #2: Midterm Discussion & Drop-box Assignment #1	7/10/22
Week 3: 6/20 – 6/26	Modules 5 & 6: Function Basics & Algebraic Operations on Functions: 3.1 – 3.4	
	Review textbook section material.	6/26/22
	Complete assigned online HW problems.	6/26/22
	Work on DF #2: Midterm Discussion & Drop-box Assignment #1	7/10/22
Week 4: 6/27 – 7/3	Modules 6 & 8: Algebraic Operations on Functions & Quadratic Functions: 3.7, 2.4, & 5.1	
	Review textbook section material.	7/3/22
	Complete assigned online HW problems.	7/3/22
	Complete DF #2: Midterm Discussion & Drop-box Assignment #1	7/10/22
Week 5: 7/4 – 7/10	Complete Assigned Homework Problems: Week 1 – Week 4 Complete DF #2: Midterm Discussion & Drop-box Assignment #1 Midterm Exam due 7/10/22	7/10/22
	Midterm exam will be available 7/4 through midnight 7/10. Covers Week 1 – Week 4.	
Week 6: 7/11 – 7/17	Module 9: Power and Polynomial Functions: 5.2 – 5.5	
	Review textbook section material.	7/17/22
	Complete assigned online HW problems.	7/17/22

	Work on DF #3: Final Discussion & Drop-box Assignment #2	8/11/22
Week 7: 7/18 – 7/24	Module 11: Exponential and Logarithmic Functions: 6.1 & 6.3	
	Review textbook section material.	7/24/22
	Complete assigned online HW problems.	7/24/22
	Work on DF #3: Final Discussion & Drop-box Assignment #2	8/11/22
Week 8: 7/25 – 7/31	Module 12: Exponential and Logarithmic Equations: 6.5 – 6.6	
Late Day to Withdraw from 10-Week Course: 07/28/22	Review textbook section material.	7/31/22
	Complete assigned online HW problems.	7/31/22
	Work on DF #3: Final Discussion & Drop-box Assignment #2	8/11/22
Week 9: 8/1 – 8/7	Module 14: Solve Systems with Matrices: 7.5 – 7.6	
	Review textbook section material.	8/7/22
	Complete assigned online HW problems.	8/7/22
	Work on DF #3: Final Discussion & Drop-box Assignment #2	8/11/22
Week 10: 8/8 – 8/11	Final Exam Due Complete DF#3: Final Discussion & Drop-box Assignment #2	8/11/22
	Final exam will be available 8/5 through midnight 8/11. Covers Week 6 – Week 9.
