

33RNSG 1430
Course Syllabus: Fall 2022

“Northeast Texas Community College exists to provide personal, dynamic learning experiences empowering students to succeed.”

Instructor: Amanda Shaw, MSN RN NPD=BC
Office: UHS 210
Phone: 469-652-0605
Email: ashaw@ntcc.edu

Instructor: Carol Slider MSN, RN
Office: UHS 210
Phone: 903-348-2703
Email: cslider@ntcc.edu

Office Hours are listed below for Ms Shaw and Ms Slider. *Contact instructor via NTCC email to schedule meetings. Meetings are by appointment only.*

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
Ms Shaw	Clinicals	7:00-1pm	7:00-8:30	7:00-8:30	Via TEAMS	
Ms Slider	Clinicals	7:30-1:30	12:00-1:30 7:30-8:30 11:30-1:30	7:30-8:30		

This syllabus serves as the documentation for all course policies and requirements, assignments, and instructor/student responsibilities.

The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

Course Description: (4 credit hours) (3 hours lecture and 2 hour lab each week)

In-depth coverage of foundational health care concepts with application through selected exemplars. Concepts include comfort, diversity, elimination, functional ability, human development, mobility, nutrition, sensory perception, sleep, thermoregulation, grief, and tissue integrity. Emphasizes development of clinical judgment skills in the beginning nurse. This course lends itself to a concept-based approach. (Fall)

Prerequisite(s): Admission to the ADN Program

Co-requisites: RNSG 1125, RNSG 1128, RNSG 1160, RNSG 1216

Student Learning Outcomes: The Texas State Board of Nurses (BON) provides differentiated essential competencies (DECs) (2021) to guide nursing education programs in developing a curriculum which prepares graduates to provide safe, competent, compassionate care. The competencies from the BON show the expected level of performance, integrating knowledge, skills, abilities, and judgment based upon the preparation in the program of study. The differentiation is based upon the level of the nursing education program which the student is enrolled. The NTCC nursing program director and faculty incorporate the Differentiated Essential Competencies (DECs) (2021) into the student learning outcomes of each course, based on the level of the nursing educational program. The learning outcomes of this course are based on the essential competencies of graduates of Texas Associates Degree Nursing education program.

Student Learning Outcomes Objectives for RNSG 1430:

1. Utilize a systematic process to analyze selected foundational concepts for diverse patients across the lifespan.
2. Describe nursing management for selected foundational concepts.
3. Apply the learned concepts to other concepts or exemplars.
4. Describe the interrelatedness between foundational concepts to assist in developing clinical judgment.

Differentiated Essential Competencies Objectives:

1. Use clinical reasoning and knowledge based on the diploma or associate degree nursing program of study and evidenced-based practice outcomes as a basis for decision-making in nursing practice.
2. Assume responsibility and accountability for the quality of nursing care provided to patients and their families.

Course Structure and Overview: Texas Concept-Based Curriculum and Northeast Texas Community College ADN Program, RNSG 1125 Intro to Healthcare Concepts, 1128 Health Care Concepts I, and 1430 Professional Nursing Concepts I, are hybrid courses with a large portion of the reading and homework to be found on the Blackboard Learning platform *and to be completed before coming to class*. Teaching methodologies include didactic and skills laboratory using low and high fidelity simulation to reinforce didactic teaching. Classroom student engagement is essential to student learning and is achieved through group projects, assigned case study research, presentations, and guest speakers. Module exams, ATI testing with active test remediation, group projects, presentations, case studies, and low and high-fidelity simulation for content reinforcement will be utilized throughout this course. The didactic portion of this course is delivered in the classroom but may be changed at any time to “online” format as determined by NTCC leadership.

The student is required to:

- Review definitions of all concepts on assigned concept analysis diagrams prior to the start of class
- Complete required reading and posted assignments on Blackboard prior to the start of the scheduled class or lab
- Attend and participate in all classroom, simulation, and lab activities

Evaluation/Grading Policy: Course grades are based on scores; quizzes, exams, special assignments, lab practical examinations and final examinations. Percentages are listed in specific course syllabi. All tests are the property of Northeast Texas Community College and are not to be retained by students. The course schedule of class topics and exams is subject to change as the need arises. A minimum overall grade of 78% is required in all Nursing courses before using that course as a prerequisite for the next course in sequence. In preparation for the State Board examination, the letter grade assigned to all Nursing courses shall be determined as follows:

- A= 90–100
- B = 80–89
- C = 78–79
- D = 66–74
- F = 65 and below.

The average of the exam grades, before weighted calculation is performed, must be 78% or above to pass the course. Grades will not be rounded when calculating the average (77.5 – 77.9 is not rounded to 78). Students with an exam average of 78 percent or higher will have course grades calculated based on the weighted calculation of the exams and other required course work. A minimum grade of 78% and a letter grade of “C” or higher is required to receive credit for the nursing course. The grade earned in this course will be based on the following criteria:

Module Exams (7)60%

Comprehensive Final Exam (1)	15%
ATI Proctored Exams-----	10%
Pop-Quizzes, Discussion Boards, other Assignments -----	15%
Total.....	100%

Additionally, all class examinations are considered to be a major part of the course work upon which a major portion of your final grade will be based. If the total average of the module exams is below 78 percent, the student will not qualify to sit for the final examination and will fail this course. Students enrolled in RNSG 1125, RNSG 1128, and RNSG 1430 will have the same exam grades for all three courses as they are taught simultaneously and testing integrates content across courses.

Exam Policies: No “review for exam” will be given by instructor. Exam blueprints are posted within Blackboard up to 72 hours prior to the administration of the exam at the discretion of the instructor. Posting of exam grades will be within 72 hours of exam completion to allow time for exam review and analysis by faculty. Students may be required to remediate concepts missed following an exam if the exam grade falls below 78. Students will not see exam questions again to protect exam security. Missed exams are made up at the discretion of the instructor and will be an alternate exam that may contain essay questions. Students should alert their instructor if they anticipate they will miss an exam.

Late work: Late work is accepted with a deduction of 10 points per day for a maximum 3 days. After 3 days have passed, the grade is a zero. Students should have a backup plan for potential computer/printer problems and not wait until the last minute to print assignments. It does not matter if the work was done weeks ahead, it will still be counted late. DO NOT rely on the campus printer/Internet system to work; it is the student’s responsibility to be prepared. Student passwords are the responsibility of the student.

Required Instructional Materials:

ADN Nursing Faculty. (2022). *Syllabus and Classroom Learning Folder*. Northeast Texas Community College.

Videbeck, L. (2017). *Psychiatric Mental Health Nursing* (7th ed.). Philadelphia, PA: Wolters Kluwer.

Minimum Technology Requirements: Students are required to have access to a working laptop computer with at least 2 GB free space for use during class sessions and for online testing. Tablets and “Chromebook” computers are not compatible with testing platforms and are not recommended. Students are also required to have access to internet service and not rely on “hot spot” internet as this is also not compatible with testing platforms used.

Required Computer Literacy Skills: Students should be familiar with the Office Suite including Microsoft Word. Students should be familiar with how to upload documents, how to send and receive email, and navigate the internet.

Communications: NTCC email is the official method of communication between faculty and students in the nursing program. Emails sent to course faculty can expect to be responded to within 24 hours Monday-Friday (Saturday for nights and weekend cohorts). Emails sent on the weekend will be answered the next business day. Faculty and students may communicate via Zoom or Microsoft Teams chat when that technology is in use or during official office hours. At all times, communication should remain professional and respectful with faculty and between students. Refer to the nursing handbook for further communication policy and procedure.

Student Responsibilities/Expectations: It is the student’s responsibility to read, understand, and follow all policies in the NTCC Nursing student handbook.

Other Course Policies: Students, when in class, are expected to be fully engaged in participation and learning. Cell phone usage is limited to class breaks. Class attendance is mandatory and absence from class can adverse consequences on successful progression within the program. A student who has missed a class, must make up class time. A student who misses 24 hours of class time will be placed on probation. Students are expected to utilize the chain-of-command when a grievance occurs, first communicating with their course instructor. If a resolution is not found, the student would then progress

to communication with the director of nursing. If a resolution is still not obtained, the Dean of Health Sciences would be the next appropriate step.

Alternate Operations During Campus Closure and/or Alternate Course Delivery Requirements

In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Northeast Texas Community College to move to altered operations. During this time, Northeast Texas Community College may opt to continue delivery of instruction through methods that include, but are not limited to, online through the Blackboard Learning Management System, online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor NTCC's website (<http://www.ntcc.edu/>) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and NTCC email for important general information.

Additionally, there may be instances where a course may not be able to be continued in the same delivery format as it originates (face-to-face, fully online, live remote, or hybrid). Should this be the case, every effort will be made to continue instruction in an alternative delivery format. Students will be informed of any changes of this nature through email messaging and/or the Blackboard course site.

NTCC Academic Honesty/Ethics Statement: NTCC upholds the highest standards of academic integrity. The college expects all students to engage in their academic pursuits in an honest manner that is beyond reproach using their intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. This course will follow the NTCC Academic Honesty and Academic Ethics policies stated in the Student Handbook. Refer to the student handbook for more information on these subjects.

ADA Statement: It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to request accommodations. An appointment can be made with the Academic Advisor/Coordinator of Special Populations located in Student Services and can be reached at 903-434-8264. For more information and to obtain a copy of the Request for Accommodations, please refer to the special populations' page on the NTCC website.

Family Educational Rights and Privacy Act (FERPA): The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing.

Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

Health Care Concepts I Covered:

Comfort

- Osteoarthritis (Chronic Pain)
- Degenerative Disc Disease (Neuropathic Pain)
- Post-Operative Pain- Total Joint Arthroplasty (Acute Pain)
- Procedural Pain
 - Dressing Changes/Wound Care, PT after Arthroplasty (Acute Pain)

Elimination

- Benign Prostate Hypertrophy (BPH) – urinary retention
- Diarrhea – Bowel Incontinence
- Gerontology – Urinary Incontinence
- Clostridium Difficile (C.diff)
- (Constipation/Impaction – Elderly – skills course)

Functional Ability

- Alzheimer's
- Downs Syndrome
- Parkinson's
- Cerebrovascular Accident - Stroke

Mobility

- Hip Fractures
- Disuse Syndrome
- Joint Replacement
- Osteoarthritis
- Osteoporosis

Nutrition

- Diets (Regular, Soft, Mechanical Soft, Clear Liquids, Full Liquids)
- Obesity
- Malnutrition (Inadequate-excess)
- Iron deficiency Anemia
- Dysphagia

Sensory Perception

- Cataracts
- Conductive Hearing Loss
- Macular Degenerative Disease
- Peripheral Neuropathy (peripheral artery disease)

- Sensorineural Hearing Loss (Pedi)
- Glaucoma
- Eye Injuries

Sleep

- Sleep Deprivation
- Insomnia
- Sleep Apnea

Thermoregulation

- Environmental Exposure
- Hypothermia – Frost Bite, Infant
- Hyperthermia – Heat Stroke – Elderly
- Fever (Pedi)
- Malignant Hyperthermia

Tissue Integrity

- Dermal Ulcer
- Psoriasis
- Wound (surgical/traumatic)
- Tinea Pedis
- Candida
- Pediculosis (lice)
- Impetigo

Diversity (school has option to teach as a HCC or to teach *Cultural Competence* as a Professional Nursing Concept).

- Hispanic Traditions – Maternity w Complementary/Alternative Medicine
- Jehovah's Witness – Blood Products, Pediatrics
- Traditional Islamic – Ritual dying Patient
- Spirituality
- Spiritual distress

(exemplars to include Race, Gender, Sexual Orientation, Age, Education, Abilities & Life Experiences)

Human Development

- Hospitalized Patient – Adult/Pedi

*** Only the concept is covered – no exemplars**

Last Revised 7/22
