Attendance Policy

Regular and punctual attendance at all scheduled classes is expected. Attendance is necessary for successful completion of course work. If you are absent, you are responsible for initiating procedures for make-up work. All course work missed, regardless of cause, is to be completed to the satisfaction of the instructor. Please see the schedule of classes for the last day to withdraw. Religious Holy Days: please refer to the current Northeast Texas Community College Student Handbook

The Carroll Shelby Automotive Program has 90% required attendance policy for all courses! After exceeding the allowed absences you will receive either an F or Incomplete for the course. It is up

to you to initiate a drop in the Office of Admissions and Records. (At the discretion of the instructor, a student with no more than one absence and with an "A" average will be exempt from the final exam.)

Note: Coming to class late three times will be considered an absent.

Professionalism

The Automotive Technology program, like most other vocational programs, has policies that must be followed. These policies will give you, the student, a better opportunity to learn the mechanical power trade. *The general classroom and lab policies are listed in this syllabus and are to be abided by.* The instructor may have additional policies for their class. If required the instructor will choose partners for assignments as required.

General Safety Rules

The instructor may have additional safety policies for their class. Remember: Your Instructor is your boss!

1. Make sure all hand tools are in good condition. Using a damaged hand tool or the incorrect tool for the job may result in injury.
2. When lifting a car by using a jack, always make sure the jack is centered. When the vehicle is raised always use safety jack stands. Never go under a car without safety jack stands.

10. Apply ethical reasoning.
11. Display initiative.
12. Display assertiveness.
13. Exhibit pride.
14. Exhibit the following characteristics:
 - a. Honesty
 - b. Reliability
 - c. Diligence
 - d. Enthusiasm
 - e. Cooperativeness
 - f. Loyalty

Dress Code

It is important to present a professional image in the work place. Uniform shirts are to be light blue work shirts (short or long sleeves) and work pants are to be navy blue in color (example - Dickie brand) and five (5) pair are recommended (minimum requirement of three pair). These are not available at the Campus Bookstore but can be purchased at most retail stores (i.e., Wal-Mart, K-mart, Sears, JC Penney). If your employer furnishes uniform shirts, they may be worn in place of the school shirt. These shirts should be tucked in, clean and neat at all times. You must have an approved uniform by the twelfth day of class. If you do not, you will have 10 points deducted from your professionalism grade each class period the shirt is not worn. Shorts and sandals are not allowed. *Professional appearance is part of your grade and is reflected in your work ethics grade.*

Safety Glasses

Safety glasses are required. Prescription glasses are okay if confirmed by a statement from your optometrist and are fitted with side shields. Bring this statement at the start of school.

Driver's License

Automotive students are required to have a valid driver's license. Without this students cannot drive vehicles to complete the required tasks. Students' are responsible for providing vehicles for many of the tasks they are required to complete.

Tools/Supplies

In addition to the regular college expenses, students entering the automotive trades programs must possess hand tools. The cost of tools and a roll cab for the freshman year is expensive investment depending on brand and place of purchase. For the second year, the costs are considerably less. It is recommended that all tools and equipment be insured under the parents' or the student's homeowner's insurance. NTCC is not responsible for students' tools. Some of the required supply items that students accepted into the automotive service technician program need to furnish are not on the equipment lists. These items, such as welding rods, brake fluid, oils, etc., must be of a particular type and should not be purchased prior to arrival on campus. Again, after arriving on campus, students will receive information about the identification and purchase/attainment from individual course instructors at an approximate cost of \$150 for the school year. See required tool list.

Vehicles for Task Completion

Students' are responsible for providing vehicles for many of the tasks they are required to complete. The school supplies certain lab units used in very specific tasks, but it is the student's responsibility to find the vehicles to complete their lab tasks. Student's may work on their own, family and friends vehicles, but remember that we are student and some projects take much more time than a professional shop. Also note that all outside work is at the discretion of the instructor. It is desirable, but not required to have a later (2000 or newer) model vehicle that can be left on campus to perform required occupational practices in labs. Students may exchange vehicles with other students when different years, makes, and models are necessary to complete tasks. It is not necessary that the vehicle be licensed or insured and there is parking provided for these vehicles.

Parts and Supplies

The Mechanical Power Technology Dept. does not purchase parts for projects. The owner is responsible for acquiring all parts and supplies required for the repair. There will be a shop service charge of five dollars (\$5.00) on each repair order. This is to cover hazardous waste disposal and consumable materials.

NTCC Academic Honesty Statement:

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

Academic Ethics:

The college expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College counselor to obtain a Request for Accommodations form. For more information, please refer to the NTCC Catalog or Student Handbook.

Family Educational Rights And Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.
