

Advanced Pipe Welding-(WLDG-2453)

Course Syllabus: Fall 2020

“Northeast Texas Community College exists to provide responsible, exemplary learning opportunities.”

Sergio Sánchez

Office: VT: 102

Phone: 903-434-8178

Email: ssanchez@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	2:30-5:00pm	2:30-5:00pm	2:30-5:00pm	2:30-5:00pm		

The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course

Course Description WLDG-2453:

Advanced topics involving welding of pipe using the shielded metal arc welding (SMAW) process. Topics include electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 5G and 6G using various electrodes.

Students enrolled in this course must have a tool kit (set of hand tools) that they may furnish or purchase from the college. Additional course fee: \$65.00. Two hours lecture and 5 hour lab each week.

Prerequisite: WLDG 1428, 1434, 1457, 1435

Required Textbook(s):

Basic Principles and Applications, 8th edition, by Larry Jeffus

Publisher: Delmar, Cengage Learning

ISBN Number: 978-1-111-03917-2. ISBN-10: 1-111-03917-8

Recommended Reading(s): Chapters: 2-(Safety), 3-(WLDG-Theory), 5-6-(WLDG set up and operation)

THE PIPE FTTR'S AND PIPE WELDER'S HANDBOOK. THE PIPE FTTR'S AND PIPE WELDER'S HANDBOOK (Revised edition), by Thomas W. Frankland

Publisher: Glencoe McGraw-Hill

ISBN Number: 0-02-802500-8

Recommended Reading(s): Basic Principles and Applications, 7th edition, by Larry Jeffus
Chapters, 5-6-(WLDG set up and operation)

Student Learning Outcomes:

Describe equipment and required pipe preparation and perform 5G and 6G welds using various electrodes.

Exemplary Educational Objectives: N/A

SCANS Skills:

Lectures & Discussions:

Course Objectives

Upon successful completion of this course, the student will be able to:

Objectives for this course are listed in the handout that covers Competencies/tasks.

Lectures & Discussions:

Task Code	Task Description
5302.00 API Standard 1104 Welding of Pipe lines (F1, F5, F 11, F14, C5, C9, C10, C14, C18, C20)	
5302.01	Discuss three general categories of pipe welds, including how they are used and what type of weld root penetration and strength they required
5302.02	Explain the importance of Joint Preparation, Pipe End Cleaning, and Welding the Root Pass
5302.03	Compare pipe to tubing
5302.04	Discuss the preparation needed before welding pipe
5302.05	Explain the importance of not having arc strikes outside of the weld groove on pipe welds
5302.06	Explain the purpose of a hot pass
5302.07	Discuss the Root Pass Troubleshooting, and Techniques for Welding Hot Pass
5302.08	Discuss the Techniques for Welding Fill and Cap, Setting the Current, and Preventing Cracking
5303.00 SMAW and GTAW Procedures for Pipe & Tube Welding (F1, F5, F 11, F14, C5, C9, C10, C14, C18, C20)	
5303.01	Describe the purpose of the root, filler and the cover passes for a pipe weld.
5303.02	Describe the vertical fixed position and give advantages and disadvantages
5303.03	Discuss how to make a weld in the horizontal fixed position
5303.04	Demonstrate welding Inspections, according to A.W.S.D. 1.1
5303.05	Discuss Gas Tungsten Arc Welding of Pipe in 5G, 6G
5303.06	Discuss Shielded Metal Arc Welding of Pipe 5G, 6G
5303.07	Demonstrate the ability in welding in the 5G and 6G positions, with the SMAW and the GTAW process on Pipe
5303.08	Demonstrate the ability of interpreting blueprints and fitting tubes
5303.09	Demonstrate the ability in interpreting and writing Procedure Qualifications Reports for different welding process
5303.10	Demonstrate the ability in welding tubs with the Brother-in-Law Technique
5303.11	Demonstrate the ability in cutting and testing welding samples with the Destructive Bend testing
5303.12	Demonstrate a quality weld on a tub at the 6G positions according to the instructors welding procedure

Competencies/tasks.

STUDENT NAME	TRUE "Y" on 4"-6" pipe	5G Pipe size6"-12", Schedule 40-80	6G Pipe size6"-12", Schedule 40-80	FINAL TEST

		5G DOWN CROSS COUNTRY	5G UP -HILL	6G UP -HILL	6G UP -HILL

Evaluation/Grading Policy:

The grades you will receive for this class will be based upon these areas:

A	Test and Quizzes:	Hands-on Lab Practices	20%
B.	Review Questions:	At the end of each unit	10%
C.	General Work Habits:	Safety, use of lab time, materials, and <u>Care of equipment.</u>	10%
D.	Mid-term Test: Units 22-23	Welding Codes and Standards Written test	10%
E.	Final Test:	Hands-on Lab 6G Positions Final Test	<u>50%</u>
F.			Total: 100%

Tests/Exams:

The final exam will be a practical exam in accordance with API 1104 Code for Pipe Welding and count as 50% of the final grade. The final exam shall be a visual evaluation and a destructive exam of a pipe weld in the 6G fixed position. These welds shall be evaluated by the instructor and a visual grade shall be assigned to the root and the cover pass the student shall cut 4 straps and bend 2 exposing the root and 2 exposing the cover pass. This shall consist of 6 grades the average shall be the final exam grade.

NOTE: To earn a Pipe Welding Certificate, student **MUST PASS 6G Final Exam according to API 1104 Code.**

Other Course Requirements:

Each student is required to have the 2nd welding toolkit AND Steel toe boots for this course. If the student does not purchase this from the bookstore they will be required to provide the necessary equipment.

General Classroom and Lab Policies

The Mechanical Power Technology program, like most other vocational programs, has policies that must be followed. These policies will give you, the student a better opportunity to learn the mechanical power trade. *The general classroom and lab policies are in the Mechanical Power Technology Shop Safety Manual.* The instructor may have additional policies for their class.

General Safety Policies

Anyone with extremely long hair must have some way to keep it up (hair net, hat). There will be no open-toe shoes worn in the shop (sandals, flip flops). Each student will be required to have a pair of safety glasses to be at all times. *The general safety policies are in the Mechanical Power Technology Shop Safety Manual.* The instructor may have additional safety policies for their class.

Student Responsibilities/Expectations:

It is important to present a professional image in the work place. Therefore, students are required to wear 100% cotton long sleeve shirts. They may be purchased in the bookstore or you can purchase in town. If your employer furnishes uniform shirts, they may be worn in place of the school shirt. These shirts should be clean and neat at all times. You must have an approved uniform Welding Clothing by the second week of class. If you do not, you will not allowed to start any hands-on welding in the lab and 10 points will be deducted from your professionalism grade each class period proper welding clothing is not worn. **Shorts and sandals are not allowed. Professional appearance is part of your grade**

NTCC Academic Honesty Statement:

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

Conduct of Course**Attendance Policy**

Regular and punctual attendance at all scheduled classes is expected. Attendance is necessary for successful completion of course work. If you are absent, you are responsible for initiating procedures for make-up work. All course work missed, regardless of cause, is to be completed to the satisfaction of the instructor. Every time the student comes late to class will be adding deduction points into his final grade. *More than three absences is considered excessive!* It is up to you to initiate a drop in the Office of Admissions and Records. (At the discretion of the instructor, a student with no more than two absences and with an "A" average will be exempt from the final exam.)

Academic Ethics

The college expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College counselor to obtain a Request for Accommodations form. For more information, please refer to the NTCC Catalog or Student Handbook.

Family Educational Rights And Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program

of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Other Course Policies:

Class recognition certificates may be distributed at the end of the course. The awarding of such certificate is at the *sole discretion of the instructor*.

LOCKERS AND TOOLS BOXES AT THE END OF EACH SEMESTER

Each student has to clean up his/her own locker, take all personal items out the locker box and return ALL WELDING TOOLS. IF ANY WELDING TOOL IS MISSING, HE/SHE WILL NOT RECEIVE A FINAL GRADE UNTILL ALLTHEM ARE RETURNED BACK AS THEY WERE ISSUED AT THE BEGINNING OF THE SEMESTER.

Classroom Face Covering Guidelines

In classrooms/labs where social distancing is NOT possible, face covering/mask and PPE appropriate for class activities are required. At conclusion of activities, the student will remove PPE, except for face covering/mask, and follow faculty instructions for disposal.

Face coverings/masks must be worn when entering, exiting and moving about classrooms/labs. Additionally, as a supplement to social distancing within the classroom, individual faculty members may require students in their class to wear face coverings while in class.

Faculty members who observe students not adhering to NTCC's face covering policy should politely ask the student to wear their face covering and direct them to the Student Services Building to obtain one, should they not possess one. Students who refuse to comply should be asked to leave the classroom and, when alternative learning modes (i.e. live remote, online, etc.) for the course are available, they should be informed of the options. If a student refuses, Campus Security (903-563-1417) may be contacted to assist, and the student reported to the Vice-President for Student Services.

As per Gov. Abbott's recent executive order, all persons must wear face coverings in all public areas (which includes inside classrooms/labs)

when social distancing cannot be observed. Faculty may remove face coverings while conducting class but must ensure they can maintain social distancing between them and the students at all times. If social distancing cannot be maintained, the faculty member must continue to wear a face covering. Additionally, the College will provide faculty members with a face shield that may be worn while conducting class in lieu of face coverings but shall not be substituted for a face covering or social distancing otherwise.

Faculty should direct students who wish to apply for an exemption to the face covering policy to the Special Populations Coordinator, Kat Belew (kbelew@ntcc.edu).

Additional Information

Students will be informed they should not congregate in the hallways and should wait outside academic buildings when possible prior to start of class.

Sanitation wipes and hand sanitizer will be provided in the classrooms/labs for students to use and to wipe down their desk/workspace area prior to class.

It will be the students' responsibility to provide their own face covering, and students will be advised of such. A limited number of face coverings for guests or students who forget theirs will be available in the Student Services Building.

Faculty should end class sessions on time to allow for an orderly exit of students who are taking face-to-face classes or are transitioning to another online classroom.

In order to facilitate social distancing in the classroom, class enrollments will be limited, and classroom furniture will be setup to allow for social distancing. Excess classroom furniture will be blocked off. Additionally, faculty who are teaching face-to-face are encouraged to assign seats.

Faculty will be required to monitor and track daily attendance throughout the semester in an effort to facilitate both contact tracing and student retention and success.

Faculty members will not be required to wear a face covering while in their private office but should don a face covering should a guest enter the office.

Alternate Operations During Campus Closure and/or Alternate Course Delivery Requirements

In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Northeast Texas Community College to move to altered operations. During this time, Northeast Texas Community College may opt to continue delivery of instruction through methods that include, but are not limited to: online through the BlackBoard Learning Management System, online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor NTCC's website (<http://www.ntcc.edu/>) for instructions about continuing courses remotely, BlackBoard for each class for course-specific communication, and NTCC email for important general information.

Additionally, there may be instances where a course may not be able to be continued in the same delivery format as it originates (face-to-face, fully online, live remote, or hybrid). Should this be the case, every effort will be made to continue instruction in an alternative delivery format. Students will be informed of any changes of this nature through email messaging and/or the BlackBoard course site.

I HAVE READ THE SYLLABUS FOR THIS COURSE AND UNDERSTAND WHAT IS REQUIRED TO PASS. I UNDERSTAND THE EVALUATION AND GRADING POLICIES IN THIS COURSE.
I WILL FOLLOW ALL SAFETY AND CLASSROOM POLICIES BOTH WRITTEN AND VERBAL.
ALL QUESTIONS I HAD WERE ANSWERED BY THE INSTRUCTOR TO MY SATISFACTION.
COURSE WLDG 2453.
